

KACPER BARYŁOWICZ

AI AUTOMATION DEVELOPER

DESCRIPTION

I am a third-year Computer Science student at the Silesian University of Technology, passionate about modern technologies and algorithms. I have experience as a programming instructor for children and teenagers, and I currently work as an AI Automation Developer, creating tailor-made projects and helping clients streamline and automate their processes.

EXPERIENCE

- **03.02.2025 - now:**

Junior AI & Automation Support at autoMEE

Supported AI and automation projects for clients by proposing tailored solutions, managing projects, and assisting in automating daily business tasks using AI agents and related technologies. Worked with tools such as n8n, Zapier, and Voiceflow to build chatbots, integrate multiple APIs (GoHighLevel, Presta, Saldeo, etc.), and design backend solutions including custom APIs. Set up and maintained Linux servers, SSH/VNC configurations, VPNs, and used Google Cloud services. Collaborated with clients from Poland, the UK, and Ukraine, providing technical expertise, project management, and customer support.

- **10.01.2025 - 21.07.2025:**

Programming Trainer for children and teenagers at Giganci Programowania

Conducted Python programming classes for teenagers and introduced children to computer science through Scratch. Designed individual learning paths and applied flexible teaching methods.

PROJECTS

- **Portfolio (HTML, CSS, JavaScript, Bootstrap)**

I created and manage a personal website that serves as an interactive CV and portfolio, where you can find much more information about me.

Website: <https://malybaryl.github.io/Kacper-Barylowicz/>

Source code: <https://github.com/malybaryl/Kacper-Barylowicz>

- **Warehouse Management Support System (Java, Spring Boot, MySQL, git)**

University project: Developed a warehouse management system using Spring Boot and MySQL, featuring user authentication, role-based access, and core warehouse operations (adding, editing, blocking goods).

Source code: <https://github.com/malybaryl/Warehouse-Management-Support-System>

- **Additional projects are available on my [GitHub](#).**

SKILLS

- Advanced Proficiency: Python.
- Advanced Proficiency: GIT
- Advanced Proficiency: JavaScript
- Advanced Proficiency: Linux
- Advanced Proficiency: n8n
- Advanced Proficiency: OpenAI
- Intermediate Proficiency: HTML, CSS.
- Intermediate Proficiency: Make, Zapier
- Basic Knowledge: SQL, MySQL, NoSQL, ORM, ERD, DDL, PostgreSQL
- Basic Knowledge: C#, C++, Java, Kotlin, Swift

EDUCATION

- **2022 – Present:**

Silesian University of Technology, Faculty: Automation, Electronics, and Computer Science, Program: Computer Science (3rd year).

LANGUAGES

- English: Upper-Intermediate Level (B2)
- Polish: Native

COURSES COMPLETED

- **Unit Testing in Python using Unittest Framework.....(26.12.2024)**
- **Pygame Tutorial – Create a Dungeon Crawler.....(26.12.2023)**
- **ENGLISH COURSE AT UPPER-INTERMEDIATE LEVEL B1+.....(01.06.2021)**
